TERMINAL MAP DESCRIPTION

Overview: BFL Meadows Field Airport has a multi-level terminal with six gates. While facing the building, the terminal is oriented with gates to the south and parking to the northeast.

Entering the Terminal: Passengers enter from the northeast through the main entrance near the Pick Up/Drop Off zone. Just inside the entrance are the airline counters (right side) and rental car counters (left side). Restrooms are located to the left near the baggage claim area.

Security and Post-Security Areas: The TSA security checkpoint is located in the center of the terminal, southwest of the main lobby. After clearing security, passengers enter the post-security concourse. Amenities in the post-security area include restrooms, a water refill station, a Mamava nursing pod, and concessions.

Gate Locations: Gates 1 through 5 are clustered together in the south wing of the terminal, accessed via a corridor extending from the main post-security area. Gate 6 is located separately in the northeast section of the post-security area.

Baggage Claim: Baggage claim is located in the pre-security area on the southeast side of the main terminal.

Ground Transportation: The rideshare pickup area is located outside the terminal to the southwest, near the rental car return. The Pick Up/Drop Off lane runs along the northeast side of the terminal.

Parking: Short-term parking is located directly northeast of the terminal, closest to the entrance. Long-term parking is located further northeast, beyond the short-term lot.
